BLUE DANUBE — Immense true blue flowers. A really new, perennial.

# HARDY PERENNIAL FLOWERS

Rocknoll is located 22 miles north of the Ohio River in southwestern Ohio. We have severe cold winters often without a protecting snow blanket and hot dry summers. Temperatures range from 20 degrees below zero F. in winter to 100 degrees in the shade in summer. We have periods of heavy rainfall and periods of drought just the same as you do.

Our soil while very fertile and productive is only good farm land used for growing corn before we took it over. We do not have deep black celery soil or sandy old lake bottoms to force fast growth on plants that often fail to hold up when moved to your garden soils.

**ROCKNOLL'S PLANTS WILL GROW FOR YOU AS THEY ARE ALL  
2 YEARS OLD. MOSTLY FIELD GROWN, SOME POTTED FOR BETTER TRANSPLANTING.**

## ROCKNOLL GIANT LONG SPURRED COLUMBINE

Superb strain of giant flowered varieties in every shade and color blend to be found in Columbine. Stems are all long and graceful; flowers abundant on stems. The best Columbine to transplant are these sturdy field-grown plants, as they have the vigor of their first full flowering period just ahead of them.

**56c Each 3 for \$1.50 \$5.50 Doz.**

# FLOWERING SHRUBS

Rocknoll's shrubs are all 2-year-old well branched field grown plants and in no case should be compared with small pot-grown shrubs usually sent out on mail orders. Our well-rooted, well-branched shrubs should bloom this coming season. All are 2 to 4 ft. high before being cut back for shipping and transplanting. Remember—to get these large shrubs you must order early, before April 15th, because after that date our large plants usually have broken dormancy. Late orders will be filled with potted shrubs when available.

## EMEROCALLIS—DAY LILIES

Every year hemerocallis or day lilies are becoming deservedly more popular as they grow successfully anywhere in the United States. These plants bloom from May through August but their main show is in July, when there is not much else in bloom. Their warm colors blend in perfectly with the hot July sun. Grow well in sun or half shade.

Plant early for bloom this July and August.

### HUMIDIFIED PACKED ROSES

To assure a minimum of water loss, the roots of Rocknoll's roses are covered with a damp packing material and tightly rolled in moisture-proof paper. The tops and the neck of the root covering packages are then sealed by dipping in a special non-burning wax. This process assures the plants being viable and sure to grow.

SURE TO GROW!

### ALL PLANTS GUARANTEED

We guarantee to ship only state inspected, true-to-name, thrifty, clean plants. Upon receipt of your stock, if for any reason whatsoever it is not satisfactory, return them at once packed as you received them, and we will refund your money or replace shipment.

Failure of plants to grow may be due to weather, improper handling or planting, over-fertilization, dogs, weeds, killers or soil conditions, all of which are beyond our control. Please follow planting instructions carefully.

However, until July 15, if you suffer any failures we will replace at  $\frac{1}{2}$  the purchase price. No claims allowed after that date.

# AFRICAN VIOLETS

We offer you these lovely African violets (*Saintpaulia*) at very reasonable prices. They are bushy plants full of buds and flowers with treated soil to assure your success in growing them. Because of freezing danger, no African violets will be shipped before March 15th.
